Memo To: Wiregrass Area Peanut Producers

From: James D. Jones

Subject: Peanut Newsletter

Peanut harvest season is just around the corner and now is the time to check your peanuts to determine optimum maturity date. Digging your peanuts at the right time is and will be the most important decision you will make this season. This one management tool can make you 300-500 pounds more peanuts and 3-5 points on your grade putting more money on your bottom line this fall.
